The Commissioners reported that two transports sailed from Spain only Sunday, instead of four days ago, as at first reparted. Each of these ships is capable of carrying 2,500 men. As the volunteers have disbanded, leaving not over 6,000 men under arms, it is expected that all of the Spanish troops will be out of the island in three weeks.

The artillerymen will go last. There is said to be a hitch over the question whether the Spaniards shall take their guns with them.

NEARING THE NAMING DAY

Col. Roosevelt in Consultation With Republican Leaders.

APPROVES THE PLATFORM

Will Soon Make Known His Reason for Declining an Independent Nomination - Consultations Between Democrats-Their Convention Will Do the Nominating.

New York, Sept. 21.- Merrily goes on the war in the Republican ranks with all the leaders fervently hoping that it will end in genuine peace at Saratoga before the setting of the sun at Saratoga an Tuesday. But the combat thickens and the fears of desertion have cropped out extensively. Somewhat to Colonel Roose velt's credit, be it said, he is no brave in the present struggle as he was on San Juan Hill. He is a full-fledged out-andout Platt machine man and while he does not consider 4t necessary to shout out the fact from the house tops he is giving ag-gressive evidence of it. The cold shoulder he has turned to the independents is not the only indication of this fact. He is expected to make official announcement of his purposes for not accepting a omination from that party before the end of the week. He could not very well tand upon two platforms and sifted down the resolutions adopted at any independent convention are apt to be as different from any dictated by the Platt organization as the day is from the night. Mr. Platt's mind has not been altogether at rest recently. The "Easy Boss" has not been so very easy in contemplating the growing averseness among the strong German element to the rough riding processes he designs to subject them to. And there have been other disturbing mat ers in his brain. Mr. Platt, it is said, has felt that there is a higher authority in the land that might take part in the present controversy. It is intimated that this was the reason of a hasty secret departure from this city to Washington yesterday. There are reports that Mr. Platt is anxious to make a deal with the President and for his favor in the present contest will call Col. Roosevelt off from any ambitions regarding the next Republican Presidential nomination. Seventytwo delegates will attend the national fair presumption of every astute politician in the State that he has informed, or will inform, Mr. McWKinley of that fact. It is generally believed here that there are Washington if he will accept them and

> No man is to be nominated by anyor in advance of the convention, Mr. Croker said yesterday. "We are not like the Republicans. We do not name our candidate for governor in advance. They have selected their man, and I don't see why they want to hold a convention. The Democratic platform will also be left to the delegates in the convention."

There is no doubt that the consensus of sinion today is that Van Wyck is in the advance. It seems as if there never has en a time when Tammany, even in the

The Result of Imperfect Digestion

The stomach, from abuse, weakness, es not promptly and thoroughly digest

The result is a heavy, sodden mass which ferments (the first process of decay) poisoning the blood, making it mass which ferments (the first process of decay) poisoning the blood, making it thin, weak, and lacking in red corpuscies, poisoning the brain, causing headaches of everything that came under their objects. thin, weak, and lacking in red corpuscle and pain in the eyes.

Bad digestion irritates the heart, caus-

ing paipitation and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys, causing Bright's disease and diabetes. And this is so because every organ every nerve depends upon the stomach alone for nourishment and renewal; and weak digestion shows itself not only in loss of appetite and flesh, but in weak erves and muddy complexion

The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the pro-per quantity of digestive acids (lactic and hydrochloric) and peptogenic pro-ducts; the most sensible remedy in all cases of indigestion is to take after each meal one or two of Stuart's Dyspepsia Tablets, because they supply in a pleas-ant, harmless form all the elements that

weak stomachs lack.
The regular use of Stuart's Dyspepsia Tablets will cure every form of stomach trouble except cancer of the stomach.

They increase flesh, insure pure blood, strong nerves, a bright eye and clear complexion, because all these result only from wholesome food well directed. om wholesome food well digested. from wholesome took well digested.

GENERAL POLITICAL GOSSIP.

D. R. Ballou, of Herkimer County, N. Y., is a Republican who is not over sanguine as to the success of his party's ticket, headed by Col. Theodore Roosevelt, the Platt candidate for governor. When seen at the Riggs House last night he said

The situation in our State is peculiar In the western and northern counties the sentiment against the Republican party cause of the canal steal is very strong. Platt will turn Black down in Roosevelt's favor, but the people all know that the steal was accomplished under the Platt regime. The people like Roosevelt, but his wearing of the Platt collar will hurt him. If the anti-Platt faction and inde-pendents should put up a strong candi-date, as now seems likely, it would make a serious division in the vote above the Harlem, which, as everybody knows, must be solid to enable the party to win. "Should the Democrats nominate a

strong man on something like a personal liberty platform, he would win enough yotes in Greater New York to achieve a victory, allowing, of course, for the split convention from the State of New York. that is looked for in the Republican vote Mr. Platt, as a matter of course, ex-ects to own this delegation; and it is the if Roosevelt had not become recognized as Platt's man."

R. F. Allen, of Lewiston, Me., was strolling through the corridors of the Ebbitt high honors awaiting Colonel Roosevelt in when a reporter asked him for an ex-Washington if he will accept them and that Mr. McKiniey is in no wise unfriendly to Gov. Black. The inference to almost lacenic:

> There is no reason to believe that Gov ernor Black of New York will be able to receive a renomination. The indications are that he is going to be defeated on the first ballot. It may not require the taking of a ballot to convince him and his down. It has always been a mystery to a great many people how Black happen to be nomniated for governor two years ago. He had served but part of a term in Congress, and was sprung on the con-

known, has the largest laundry establishments in the United States. Some of the firms up there that manufacture cuffs and collars take in laundry from the sur-rounding country. Congressman Black in Troy, notwithstanding his temporary residence was in Washington. He went upon the principle that it was his duty to patronize home industry, and it was not difficult for him to patronize his home loundry without additional expense so long as he could frank the packages to and from Washington, thereby saving express charges. Quite a sensation was made out of the matter by the New York newspapers it was satisfable. ceased to patronize the Troy laundry, and managed, during the remainder of his congressional term, to have his washing done here. He never denied the fact that he was using the Congressional newspapers. It was state! that Mr. Black he was using the Congressional frank on his laundry.

"Secretary Alger can well afford to say, let the soldiers talk," said a well known correspondent in Newspaper Row last night, "The Secretary exhibited great bravery when he made the statement which was accredited to him from Cincinnati. The Secretary knows that those who could talk and tell the most damaging truths about the mismanage nent of the War Department are dead, therefore he can swell himself up with pride and proclaim to the world, 'let the soldiers talk.' If all the dead could talk they undoubtedly would tell a story that Secretary Alger would not care to see in print. of them would be court-martiated it they was tell all or even a part of what they may know. The Secretary might deny having made the statement at Cincinnati and every soldler who did talk would be subject to court-martial. The soldiers are too smart to be caught in any such trap. They will wait until they are mustered

servation from the time they went into the war until they came out, and when it comes their time to talk they will have sufficient material to impress Secretary Alger with the fact that they are not talking at random, but that all they say is based upon facts."

The announcement that Postmaster General Smith is to take the stump and make a political canvass from now until election day, has done much to arouse the indignation of the civil service reformers. There have been very few Cabinet officers to participate in cam-paigns since President Arthur retired from office on the 4th of March, 1885. When President Cleveland first came in he would not permit it, and little if any was indulged in when President Harri-son occupied the chair. In the campaign of isse a number of Cabinet officers un-der Mr. Cleveland engaged in the campaign, and all of them advocated the de-feat of Mr. Bryan, the Democratic can-didate. President Cleveland did not make any objection at this time to their making political speeches. The experience of Secretary Carlisle at Covington, when rotten eggs were thrown at him, is well

It was believed by the civil service reformers that President McKinley would not permit any of his Cabinet officers Marshall, to make political speeches, and the fact sel9-21-23 that Postmaster General Smith and As-

sistant Secretary of the Interior Webste. Davis have both gone upon the stump, has aroused the friends of civil service reform a great deal. They argue that the President is not complying with the spirit of the civil service law, and is willing that it should be violated for political effect.

Gen. Joseph Wheeler's nomination by acclamation on Saturday last, receiving as he did the undivided and hearty indorsement of every political party in his district-Democrats, Republicans, Populists, and all-is a fitting tribute to the hero of two wars, a gentleman, a statesman, and a scholar. Gen. Wheeler has man, and a scholar. Gen. Wheeler has represented his district in Congress for eight terms in a most able manner. He will succeed himself in the Fifty-sixth Congress without having to fight a single campaign battle, and the 176,000 and odd voters of the Eighth district of Ala-bama will doubtless for the first time in their history be manimous in the support of their representative.

The Democrats of Albany, New York, re rejoicing over a turn in the political affairs in that place which promises to make the election of their nominee for Congress almost certain. An independent ticket has been put in the field, with Oren E. Wilson, former mayor of Albany, as the congressional nominee. This, it is claimed, will split the Republican strength squarely in half, and allow the Democrats a walkover.

According to George B. Parsons, State's attorney, at Schwaneetown, III., the Democratic prospects are very bright. He writes: "In this state we shall certainly carry the lower branch of the legislature, but owing to the large number of hold-over Republican State senators we will not have both branches. We will, I am sure, send nine Democratic congressmen o Washington outside of Cook County. Notwithstanding we have nearly a thou-sand Democrats from this district in the army at Jacksonville, we shall elect Bob Williams by a big majority." Mr. Williams was a former member of

At a recent meeting of New York State Democratic editors, held in the Hoffman House, it was the unanimous report that the Democratic party all over the State was in an unusually well organized condi-tion and able to present a solid front to the enemy this Fall.

The Third District Republican Club, of leveland, Ohio, makes no secret of the fact that it is out for the spoils, and has gone so far as to inaugurate a war on women holding clerical positions in the city and county offices. The club has ap-pointed a committee to call on the city and county officials and request that the discharged and men put in

New York, Sept. 21 .- Miss Edythe Wentworth Skerrett, a daughter of the late Rear Admiral Joseph S. Skerrett, U. S. N., was to have made her stage debu last winter in Mr. Charles Frohman's Empire Theater stock company. The old naval hero had died poor, and his daugater, finding it necessary to add to the means of her mother and herself, determined to adopt the stage as a profession Owing to the sudden illness of her mother, however, she then relinquisehd al thought of a stage career, and returned to Washington, where she had been a great belle, and took upon herself the personal care of Mrs. Skerrett.

The recovery of her mother, however recently brought her to New York to again seek an engagement, and Mr. the stage. Monday night the boat left here for Memphis and when it was tied up at Hugs Landing, one mile from Creston, Mo., the two men became involved in a dispute that ended in the watchman viciously attacking Davis with a knife. Davis answered stab for stab and the frenzied men fought for several minutes, the passengers mean-while being unable to interfere. ered with blood and unterly men sank to the deck and
